Dear Mr. Mendelson:

We would just like to thank you again for the wonderful Day in Clay program you provided for our students last year. Every child in grades K-6 had the opportunity to witness your hands-on demonstrations, and many had the chance to work with this medium themselves. Your presentations were informative, engaging, and highly motivating. After your program, a number of students expressed aspirations of becoming potters. Parents told us how excited their children were about this enriching addition to our art program. We hope that you will be able to visit our school again in the future.

Sincerely yours,

Andrea Stone
